

Health Safety and Environmental Management System

Creation LLP

Creation are the only concrete and resin flooring specialist in the UK which runs as a Limited Liability Partnership. This means the team working on your floor have a vested interest in the quality and success of your installation.

Consequently we believe in our market we have the most motivated workforce in the UK, one that is willing to go above and beyond to ensure everything is done to the highest possible standards, and where the effective management of health, safety and environmental standards is integral to their daily activities.

Health Safety & Environmental Management System within the LLP

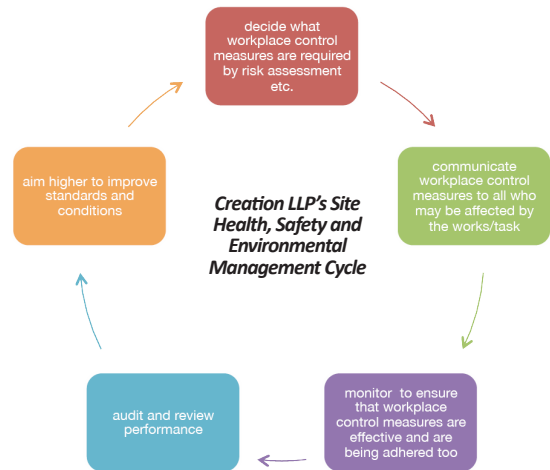

We are CHAS Accredited and have a structured management team who along with their fellow Partners have been highly trained to carry out all necessary tasks and job specific management requirements for you on your project.

Our Health, Safety and Environmental Management System has been designed and integrated into the heart of our business with all relevant data and documentation shared with all parties and available to you on request.

We also have site waste management protocols that record waste production and recycling as well as rigid "near miss" and accident reporting procedures.

Our Process

All our processes are continually monitored and audited to improve standards throughout the business with monthly meetings to review all records and findings with a view to immediately implementing any necessary changes to our processes.

The safety of our partners and your personnel during our time working with you is paramount. We will provide and share with all Stakeholders all necessary Method Statements & Risk Assessments including our COSHH Assessments and daily HAVS reporting on the team installing your product, together with a thorough assessment of the Health & Safety impacts relating to your staff.
